## CONDITIONS OF SALE.

### Please Read Sale Terms Before Bidding.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing **within 30 days of the date of the sale.**

Coins and medals are sold at so much per **PIECE**, and no lot will be separated. You cannot buy a few pieces out of a lot but must buy all of it. The auctioneer will accept no bid under 10 cents to start a lot where that lot contains only one piece; nor will he accept any advance under 5c on any lot containing but one piece; after the price has reached \$2. no advance under 10c will be accepted on any lot containing one piece; after \$5.00 the bid must advance 25c each time; after \$10 no bid under 50c.

Our rules regarding lots containing more than one piece will remain unchanged and the same as before.

Auction sales are **strictly for cash**. Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

**Be sure you bid on the lot you wish to buy.** We cannot correct such errors.

All coins, etc., are genuine unless otherwise described.

A charge of 5% will be made to cover packing but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, **THOMAS L. ELDER.**

**Important Notice.** We keep two books of the sale recording each lot as sold, and we will not accept any sale records from outsiders. **Our records are final.**

No priced catalogue will be furnished of this sale.

## INTRODUCTION.

---

With great pleasure we offer to collectors, a very fine collection of Coins, Tokens, etc. made by Dr. D. W. Valentine, of Englewood, N. J. Dr. Valentine was formerly President of the New York Numismatic Club, and has been greatly interested in the collecting of Rare Coins and Paper Money for many years. He is the author of the best known work on the United States Fractional Currency, and has made a lengthy study of Foreign Coins also. In giving up general collecting he is retaining of his collections only the series of United States Half Dimes, and his collection of these ranks with the best. The present collection is rich in the regular series and includes among them a complete collection of the Gold Dollars of the United States and the Branch mints, also complete collections of Half Dollars, Dimes, Cents, and minor coins. His sets include many Rare & Choice Continental Coins, and his three dollar gold pieces include all but about three dates.

Gold Dollars include the great rarities 1875 of the Philadelphia Mint and the rare branch mints dates 1855, 1856, 1861, Dahlonega and 1870 of the San Francisco Mint.

Half Cents include many fine 1793s and 1794s, and the Earl specimen of 1796.

Early dimes are very fine also. United States Cents embrace many very fine coins, which should be appreciated by collectors.

There are perhaps fifty different pieces of fine Foreign Gold coins.

His Foreign Silver offers some very attractive issues in coins of Russia, Poland, Venice, Switzerland and other countries of Europe and South America, including England and her Colonies.

Very Fine Collection of Copper Coins of Europe etc. to be sold by Countries.

Added to this fine Collection are his Numismatic Books and catalogs, and supplementary collections of fine U. S. Gold, Dimes, Half Dimes and some very fine Cents, Rare Connecticut Granby Cents of 1737, New York Colonials and others. Rare Jewish Coins with Five Silver Shekels. Fine Collection of Bryan Money.

The last group in the sale is a very fine collection of Ancient Gold, silver and bronze coins, including coins of Lydia, Egypt, Greece and Rome. with many rarities in the best condition from 750 B. C. to the Gothic Kings. It is hoped this fine collection of material will be appreciated and a large

number of bids sent. Go over your bids twice as we cannot be responsible for errors in bidding, made at every sale. Collectors are indignant, because they have to take lots bid on in error, but such errors, if Collectors don't take the lots always result in our failure to have the lots sold at the sale and are held over, for which we are not at all responsible. **Kindly read our sale terms.** Send in your bids early to avoid delay or failure to get your bids executed. New bidders kindly send us references or a deposit.
